

# The new Drammen Hospital is opening soon

**Starting October 5, 2025, residents will begin using the new hospital at Brakerøya in Drammen.**

The hospital brings together treatment for physical health, mental health, and substance abuse under one roof. Radiation therapy will also be available at the new hospital.

## Practical information for you as a patient

### Where should you go?

Starting October 5, all patients must go to the new Drammen Hospital at Brakerøya. The address is Jacob Borchs gate 10.

There is one main entrance.

*Note! Emergency clinics are not relocating.*

### Check-in and payment

You must check in when you arrive at the hospital.

You can do this either on your mobile phone by clicking the link in the SMS you received from Vestre Viken, or at a terminal inside the main entrance.

### Finding your way around

From the main entrance, it's easy to reach all treatment areas.

The signage in the hospital follows the so-called "airport method" — for example, D2 means entrance D, 2nd floor.

## How to get to the new hospital

### Car and parking

Car access is via the new roundabout on Nedre Strandgate, directly across from the CC Drammen shopping center.

There are 600 parking spaces for patients and visitors located close to the hospital. See P1, P2, and P3 on the map on the last page.

---

### Bus

Brakar is introducing a new bus line starting October 6:  
Line 1 Mjøndalen – Bragernes Square – Drammen Hospital, with 8 departures per hour on weekdays.

From August 18, Brakar lines 61, 71, 73 and Ruter lines 251 and 261 will stop at the new Drammen Hospital. The stop is called Drammen sykehus Brakerøya. See [brakar.no](http://brakar.no) and [ruter.no](http://ruter.no) for timetables.

---

### Train

Line R13 Dal–Drammen stops at Brakerøya Station.  
Travelers using other lines must transfer to R13 at Drammen Station.

From Brakerøya Station, you can reach the hospital via the new pedestrian bridge, which has both stairs and an elevator.

---

### Bicycle

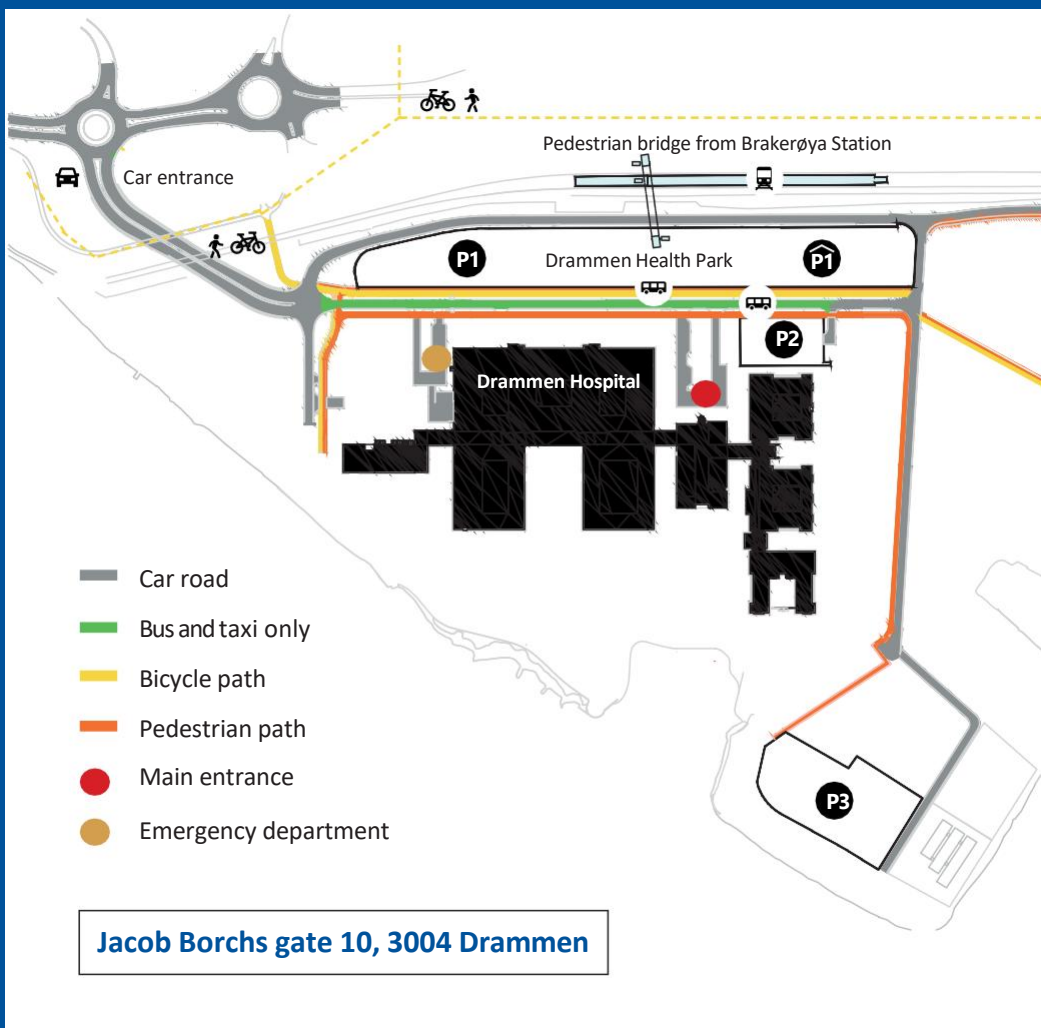

Several bike paths from Drammen have been marked as red “bicycle-priority streets” leading to Brakerøya. On the website [sykkelveier.no](http://sykkelveier.no), you can enter your own address and get suggestions for the best cycling route.

There is bicycle parking near the main entrance area, as well as a designated parking area for electric scooters.
